A CHAUTAUQUA FOR DOTHAN

The Movement is One of the Most Potent For Good Yet Known.

A movement to secure a chautauqua for Dothan is being seriously considered. The Chautauqua movement is one of the most potent forces for god yet known. To enumerate its various activities would be no easy task in itself. Among its influences are the following:

1. It furnishes instruction in the form of pleasing lectures, along lines of health, government history and literature.

2. It brings together men and women of master brains. The people gain immeasurably by contact with these strong minds.

3. It furnishes a species of entertainment which entertains and instructs at the same time. In reality, it is the people's university.

4. The material gains in the way of trade by Chautauqua visitors must not be overlooked.

5. A Chautauqua is unequaled as an advertiser. The 40 or 50 people who lecture and furnish entertainment are powerful forces in their respective communities. If they are impressed with our advantages, they will not fail to let the matter become known.

TALKKING OUT.

Those who are pretty sure to run for sheriff next year in this county are, C. J Rollins, B O Hay, John May: and those who are spoken of but who haven't come out flat, are: Lum Hughes W. S. Benham, Carlo Murphy and possibly others. It is some time off yet, and no telling how many more will decide that the office looks good, and easy, and will come out.

THE COMING MINSTREL

One of the biggest treats that has been given the showgoing people of Dothan in some time will be the minstrel entertainment put on by local talent at the Elite Wednesday night.

Great preparations are being made and quite an interesting program has been arranged, which will last probbly three hours, and arranged in such a way there is not a chance for anyone to get tired at any time during the performance.

It is being given under the auspices of the Dothan Athletic Club and the proceeds are to be used for the better equipment of their gymnasium. The boys are taking a lively interest in the affair and have been rehearsing and practicing for four weeks already.

All the jokes and songs selected are new and up-to-date, and are delivered with skill equal to that possessed by the best professional minstrel talent. Bart Thrasher as end man displays the gift of talent that no one can question. The songs are all catchy and will be a distinct feature in themselves. They will be given with orchestral accompaniment. The Orchestra is within itself a treat that is worth the price of admission.

The costumes have all been prepared and the appearance they make on the boards is not to be criticized.

Watch for the street parade Wednesday afternoon, and you can see that we are not exagerating their claims.

Advance sales indicate that the house will be packed, and if you want a desirable seat, or seats, because the ladies may well feel slighted if you overlook them, you had best secure it at once. Reserved seats are now on sale at Smith's Drug Store.

SCHOOL CLOSES.

This is the last week of school The pupils are busy with their examinations, which will be finished on Friday. Monday and Tuesday of next week the Commencement exercises will be given and then no more school until Fall the children will scamper away to the woods and fields and the teachers will return to their homes. It will be mighty dull here for some of the boys when they leave and they will be missed by all. Nothing too flattering can be said of the Dothan teachers. They are justly due every word of praise for their work and every compliment for their personal charms which they receive.

RELEASED ON BOND.

John Bullard and Henry Richardson, two of the Covington county night riders, were released from the county jail, each having made bond of $400 for his appearance before Judge Jones for trial in the United States Court on May 25.

Six of the alleged night riders remain in jail, John Richardson, Jim Bullard, Frank, Bud and Elbon Goolsby, and Flem Richards

The men were indicted for nightriding and conspiracy. It is alleged that they scoured the country about Coving county, dragging men and women from their homes in the dead of night, and whipping the victims, with the effort to intimidate them.

WITH THE RAILROADS

Mr. W. F. McClellan, Auditor for the A. and St. A. B. Road, went to Cottondale this morning.

Freight business is very dull with all the roads at the present time. In a few weeks the melon season will open up and business will be rushing.

The local freight trains on the Central, which have been stopping overnight at Dothan, now run through to Hartford. Light business at the moment allows them to make better time and longer trips.

RESOLUTIONS ADOPTED

By Members Lafayette Avenue Methodist Church, South, Sunday Evening, May 16, 1909.

Whereas, by the munificence of Brother J. D. Flowers, Lafayette Avenue Methodist Church, South is today enabled to enter into this handsome edifice, freed of all incumbrances, presented af a free gift to the church, and

Whereas, the entire membership of this Church, and all Methodism in Dothan, profoundly appreciates this great gift; and

Whereas, that not-with-standing the unanimous deed already done, Brother Flowers proposes to complete the building at a cost of several thousand dollars, with his own means, and present this also to the Church, and as a sacred memorial to his beloved ones, upon the one and small condition, that the Methodists of Dothan rally to the New Church and make it a self-sustaining charge:

NOW THEREFORE, Be it resolved;

First. That the entire membership of Lafayette Avenue Church extend to Brother Flowers our deepest and most sincere appreciation for the gift now made, and the greater proposition held out, pledging to him the positive assurance that the condition named will be—indeed has been and is now already met.

Second. That as we are taught "It is more blessed to give than to receive," may God in His goodness bring new pleasures and renewed delights into his soul sweetening and purifying the evening years of his life, bringing him into that conscious assurance of a deed well done, which non can know but a true servant of the Lord.

Third. That a copy of these resolutions be furnished Brother Flowers, one copy to the Dothan Eagle for publication, and the secretary be required to spread the same upon the minutes as a permanent record of this Church.

PRIMITIVE BAPTISTS.

Elder Hassell of North Carolina will preach at the Headland Avenue Baptist Church Thursday evening at eight o'clock. Elder Hassell is one of the most able men in the Primitive Baptist denomination and all are cordially invited to hear him.

Mr. W. D. Skipper of Headland is here today.

Mr. J. R. Faircloth returned from Ashford this afternon.

Mayor Baker went to Panama City yesterday.

A MODEL DAIRY.

The Locust Grove Dairy is a Sunday evening outing point of some interest. Many of Dothan's people go out during the week, but on Sunday afternoon, many visitors go out to see the drove of cows, to see them milked, to see the milk handled, the separator work, and the churning arrangement. The buildings have recently been completed and the cows shipped here from James, where this dairy has been operated for years The cows are all high bred, and have been examined by the agricultural department of Alabama and pronounced healthy. To see how they are cared for, and how the milk and butter is handled is enough to convince any one that the product is handled according to the approved manner.

They milk something like thirty cows. The cows are kept on cement floors, and the greatest precaution is exercised in the management of the milk from the time it is taken from the cows till it it put on the market. When these people came to Dothan with a view of locating here permanently they had their barns built along the lines and plans that the department of agriculture at Washington suggested, and it is as near a model dairy as it is possible to conduct one, so far as cleanliness goes

DEATH OF MRS. ARGO.

Mrs. Willie Argo died Saturday night at the home fo her brother, F. B. Culver, on North Oates St She had been confined to her room several months with consumption, and the end came about seven o'clock Saturday night She was also a sister of Mrs W. B. Lee, of this city. The remains were carried back to Troy, her old home, for burial on the early train yesterday morning, accommanned by Mr. Culver and their mother.

That 'tis better to have loved and lost, than never to have loved at all" may be all right for a poet but it doesn't go far toward soothing a broken hearted maiden What the young lady in the Breach of Promise suit has to tell will be a plenty.

In about a month many editors will turn their faces towards Dothan, away down in the south east corner of Alabama to attend the annual session of the Press Association We dare say there will not be a great many of them present who reside above Birmingham Dothan is a long distance counted at 3 cents a mile even from Greensboro and the editors in these latter days of railroad regulation, have to pay cash in order to ride the cars- just like the common run of people But we are glad the Association meets at Dothan Turn about is fair play There are editors in some portions of the wiregrass section who have not of late years been financially able to show themselves at meetingsheld in Birmingham Bessemer and other far away places We do not now recall ever having seen an editor from Henry Coffee Geneva, or Covington counties—but we know the woods are full of them and the loss has been ours that we have failed to make the acquaintance of these estimable gentlemen It will be worth the trip to Dothan to get to extend the glad hand to them Ga rushore Watchman

SATURDAY S DELAY

The city was unable to furnish power from noon till five o'clock Saturday The boilers got choked up and failed to steam and the auxiliary boilers kept and maintained for such emergencies had n't been fired in so long that they didn't steam well It took five hours to get things going again This is too much time to lose in a break down like that looks like Those boilers that if there want ing for the others to go down ought to be looked into and kept in perfect workingorder so when they are needed they can be used promptly If they are not paying for their keep Under the circumstances the town did the best it could but it is to set things straightened out down there so where they can do better than a five hours wait right in the middle of a busy day

Dothan is getting too big with too many enterprises depending upon the city a power for business to let a delay like this happen That plant is valued at something like $45 000 and to get $87 000 worth of good from it, should be run in such a way that a delay, or a breakdown would be but a matter of a few minutes

THE MOCKING BIRD

No home is thoroughly complete these spring and summer nights without the mocking bird singing from a nearby pear tree water oak or umbrella China Nothing tends to give that home like feeling so much as this ever singing solo trio quartet sextet and when it takes up about the place and scolds at the cat sitting near the back door and keeps a watchful eye on the young chickens around the coop there is a satisfaction that nothing else brings The mocking bird has not been noted for his residence in Dothan till here of recent years He is coming now or has come and he sings from early morning till dewy eve He sings while you are chopping wood milking the cows doing up the night work he sings while you are eating supper he sings while you are sitting about resting after supper and he sings for you till you go to sleep and then if you get up through the night to hunt the bottle of oil or to throw something at the cats he is still singing in that sweet low mellow tone His songs are 'taps' and a benediction at night and his lively reveille is a battle cry for business in the early morning

When the mocking bird builds its nest about the place he is a resident he stands for good citizenship for good morals and does all good music He ought to feel just as much at home as any other member of the family and should be protected and usually is

As a town grows its shade trees grow and its shade trees with their thick branches afford good protection for the mocking bird Welcome him about the place

ART EXHIBIT

By the generous provisions of the Horace K Turner Company of Boston Mass we are able to take advantage of the famous Turner Free Traveling art exhibit during the days of Wednesday Thursday and Friday inclusive and we will plan as far as possible to bring our young people to an appreciation of the treasures of Art which will be brought to them

The pictures are beautiful reproductions and the majority of our school children have never seen prints of such high standard and excellent quality They are made by photographic processes only and as shown, are in one color (brown gray green, or blue tones) and in the colors of the originals (in hand color and in color Photography)

This collection is a traveling Art Gallery or Art Museum in itself including as it does reproductions of the World s leading subjects in paintings portraits architecture sculpture and natural scenery

What the Art Exhibit Will Do for Our Community

The Art Exhibit offers a splendid opportunity to begin a work in the Schools of stimulating an appreciation of good pictures among our children It will reach out into the Homes and awaken great interest in the pictures among the parents It will bring the entire community in closer touch with the Schools and their needs and will provide a substantial fund for schoolroom decoration

Art Study in Our Schools

It is by successive stages that our Teachers will carry forward our pupils into an appreciation of the great works of Art Simple contact with the pictures at the Exhibit is not enough—sympathetic enthusiastic instruction is imperative through the teacher who knows how to interpret them truly

To meet this need the Horace K Turner Company has grouped Studies of pictures into series for each grade with the aim of gradually developing the pupil s appreciation of good pictures By suggestive methods and reference material for the teachers these Picture Studies explain the motives that the artist has brought into their composition

In co operation with the plan of this Company we will arrange in our school program for Picture Study using as a basis the analysis of a few famous ones which are furnished us Our pupils will gradually become skilful in interpreting pictures and practice the expression of thoughts and feelings that would otherwise remain dumb and unutterable in their minds

We all owe it to the best in Art Exhibit not only for ourselves but for the public and especially for those who are to follow us

Bearing this will appeal to all we respectfully ask your co operation Tuck items 10 cents

How Is Your Watch Running?

Watch Repairing always has been a hobby of ours to do the Best Work possible

Is it always fast or slow? Never quite on time? Perhaps the watch is capable of very accurate running but it is not in perfect order. You know the tiny mechanism of a watch absolutely demands that each of the dozens of little parts—springs, wheels, jewels, etc.—be just right or good timing is out of the question.

SUNDAY SCHOOL PICNICS.

The Methodist and the Presbyterian Sunday Schools are making preparations to have their annual picnics. All the Sunday School of the city generally get together and have a big picnic, but nothing is being done along this line this year. The Methodists yesterday appointed two committees to look after theirs, an arrangement committee and a committee on time and place. The Presbyterians also appointed committees to look after theirs. All these committees will report next Sunday when definite action will be taken. It seems that each Sunday School will have its own picnic this year. The Headland Avenue Baptists have already had theirs at Barrett's.
